d--x----- 4 kali kali 4096 Jun  4 08:40 ..
```

k) Entra nella cartella lavoro e crea un file emacs

Creato e salvato un file emacs con permessi superuser:

The screenshot shows the GNU Emacs editor window titled "file.doc - GNU Emacs at kali". The menu bar includes File, Edit, Options, Buffers, Tools, and Help. The toolbar contains icons for new file, open file, save, undo, redo, copy, paste, and search. The main editing area is empty. At the bottom, a terminal window is open, displaying the Emacs startup screen. The terminal output includes a welcome message, a list of links for tutorials, manuals, and warranty information, and the version information for GNU Emacs 29.3. The terminal prompt shows the user is in the directory ~/studenti/nicola/lavoro and has just run the command "sudo emacs file.doc".
